**NPDES MONTHLY MONITORING REPORT FOR BOARD ORDER
NUMBER 2000-12.**

Enclosed please find the May 2001 Monthly Monitoring Report for Board Order Number 2000-12.

Also enclosed find the City of Oceanside's May 2001, Monthly Receiving Water Report as requested.

On May 13, the secondary sludge clarifier sludge blanket came up and released excessive suspended solids resulting in a violation of our daily suspended solids concentration limitation. Please note that the monthly average was not exceeded.

Corrective action:

Problems with secondary settling appear to be an annual seasonal occurrence. We are presently investigating additional monitoring parameters such as phosphorus and nitrogen.

We also hereby request a meeting with Regional Board Staff to discuss this incident.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Sincerely,

Joel V. Holt
